

Diya Chemicals

Product Name: - **ActiveCIP**

ActiveCIP is a highly effective oxidizing disinfectant based on peracetic acid for use in the food, beverage and dairy industries.

ActiveCIP is a stabilized peracetic acid solution (5%) which is non-foaming and completely free-rinsing. It is a highly effective disinfectant against all types of micro-organisms including bacteria, yeasts, fungi, and viruses. **ActiveCIP** is specifically formulated as a terminal disinfectant for use in automated CIP systems. It also has excellent deodorizing and stain removal properties for Dairy Industries, Food Industries, Beverage Industries etc.

Benefits of ActiveCIP:-

- * Versatile and effective CIP disinfectant, can be used in breweries, dairies, soft drinks plants and throughout the processed food industry
- * Powerful oxidizing action also assists stain removal and deodorizes
- * Free-rinsing and non-tainting ensures safe for all food applications
- * Low environmental impact, breaks down to materials that are innocuous for waste water treatment
- * Suitable for use in soft or hard water

Diya Chemicals
