**Product Name: - Dazzle-LC**

“Dazzle\_LC” is a medium duty alkaline degreaser in powder & Liquid Form from which is used to remove grease, oil, carbonaceous deposits and other rust preventives from ferrous surface.

“Dazzle\_LC” is generally operated at room temperature by immersion application. For effective degreasing, one can apply agitation and/or heating to the bath.

## **1. PRODUCT DETAILS**

- A. APPEARANCE : Brown colored powder & Liquid
- B. COMPOSITION : Blend of alkalies with detergents & emulsifying agents.
- C. SOLUBILITY : Easily Soluble in water

## **2. PROCESS DETAILS**

### **Process Parameters**

- a. Time : 10 – 15 min
- b. Working Temp. : RT to 60<sup>0</sup> C
- c. Concentration : 5 % w/v

### **Making New Chemical**

Fill water to the desired level in the tank. Heat water to the operating temperature, if it is above room temperature. Dissolve the powder to water taken in the tank. For adding powder to the tank, first dissolve the powder separately in water. Add the solution to the tank and give good air agitation upon addition.
